

Main Features

- One PCIe 3.0 x4 slot supporting PCIe x1 and x4 expansion cards, including LAN, USB, Capture, and PoE (IEEE 802.3af, 15.4W per port), and other expansion cards

Product Overview

Expand the capabilities of your NDiS B340 with the DockInfinity extension enclosure. Designed for applications requiring additional I/O and functionality, DockInfinity-E4X1 supports one half-size PCIe 3.0 x4 expansion card and is backward compatible with PCIe x1 cards. It enables flexible integration of LAN, USB, Capture, PoE, and other PCIe expansion cards, providing greater scalability for a wide range of edge computing applications.

Specifications

Environment

- Operating temperature:
 - -20°C~60°C (w/ NDiS B340-X7213RE/NDiS B340-X7433RE)
 - -5°C~55°C (w/ NDiS B340-N97/NDiS B340-N150)
- Storage temperature: -20°C~80°C
- Humidity: 10%~95% (Non-condensing)

Mechanical

- Dimensions: 106.0mm (W) x 189.6mm (D) x 44.0mm (H)
- Weight: 0.5kg

Package Information

- Dimensions: 476mm (W) x 355mm (D) x 206mm (H)
- Gross weight (2 units per carton): 2.17kg

Ordering Information

- **DockInfinity-E4X1 (P/N: 10W00DOCK01X0)**
One PCIe x4 expansion kit for Duro Edge computer
