

FA 3rd Party Integration

Software Service on
NIFE platform & Hilscher fieldbus card

The diagram illustrates the integration of a NIFE platform with SCADA/SoftLogic software and Hilscher Cifx fieldbus cards. A green box labeled "SCADA / SoftLogic" is connected to the NIFE platform. The NIFE platform is a silver industrial device with various ports: 10-28V DC, VCC, GND, DVI-I, HDMI, two USB ports, and two RJ45 ports labeled "25x1" and "25x2". A green line connects the NIFE platform to a stack of four Hilscher Cifx fieldbus cards, which are shown as vertical modules with blue labels.
